

The image features several dried, light-brown flower petals and stems scattered across a light-colored, textured background. A white rectangular box is centered over the petals, containing the text 'Lucrecia' in a cursive script and 'ACERCA' in a simple sans-serif font below it. The petals are delicate and show some natural staining and texture. The stems are thin and brown, some with small, dried floral parts at their tips.

Mel

I look around so I see
inside you what I care
you come around to find me
could this be love? I wonder

I just don't care the realness is so strange
I try to understand, the things I do
I want to take, the things and throw away
the ones that I select, to just feel good

Hue

Finally time's closer
to show moments full of you
a place of love with you
finally we can
handle our love of free times
of long talks not having you
but with with your big heart
and mine is for you
be sure

Contenta

To often to see that
I don't try
to save what's mine
to save what's mine
To often I try hard
to cover my heart
to save what's mine
to save what's mine

Life, life gets down
when you change
I cry bad
you, you calm down
I can change
make you laugh

Cliv

Like all the lights my love is
treasure you will see
and you would care
like all the lights you could stay
and you should come around me
for my health
Since you heard
since you care
I am glad
lights got into you
since you love
since you let
all the love get through on me

Id

Instantes de luz de sentir
ir y no volver
encontrar aún lo mejor
y dejarlo ir

Gelito

Días que tardan mas
Días que en calma van
no basta con contar
solo al calmar, avanza
Y cómo hacer para acortar la hora de ir
a encontrar lo mas lindo de hoy
a recordar semanas
poder sentir lo que el amor dejó en los dos
de cuándo estábamos mas
cuándo conmigo el tiempo estaba

Acerca

Despierta y se da
desde un punto dual
lo que no da resiste
y pienso que tal vez
es verdad o no
lo que se da resiste
estar así
y no ver
no estar disponer
de lo que no es
